

VIKING SEATECH

QUALITY POLICY

Viking SeaTech will develop and implement a systematic approach to Quality Management which will provide the framework to understand our customers' needs; and deliver products and services that satisfy those needs within the laws and regulations of the countries in which we operate, and to appropriate national and international standards.

Specifically we will strive to:

- Ensure that our Quality Policy and standards are understood and followed at all levels in Viking SeaTech.
- Set objectives and targets which promote continuous improvement in performance.
- Measure, appraise and report on Quality performance.
- Provide appropriate training to all staff and assess their competence.
- Identify and assess business risks and opportunities including planned changes.
- Maintain open communication with customers and evaluate customer satisfaction.
- Identify, investigate and correct Quality issues and take the appropriate action to prevent recurrence.
- Engage with sub-contract companies and suppliers who endeavour to ensure that their Quality standards match our own.
- Periodically review the suitability and effectiveness of this Policy, our management systems, targets and objectives.

This Policy statement is available to all interested parties.

A handwritten signature in black ink, appearing to read 'Chris Forde', with a long horizontal flourish extending to the right.
